Introduction

This document provides details and contact information for organisations taking part in the National Mutual Acceptance (NMA) initiative.

There are 3 sections:

- A. Certified Reviewing Human Research Ethics Committees (HRECs)
- B. Participating Research Governance Offices (RGOs)
- C. Participating Organisations

Within each section, details are provided separately for each State/Territory participating in National Mutual Acceptance.

Information for Section A

For every NMA research project, a Human Research Ethics Application (HREA) form must be submitted electronically, with supporting documents, to the reviewing HREC.

Information for Section B

For each site in a NMA research project, a research governance application must be submitted electronically, with supporting documents, to the site's Research Governance Office.

Details of the research governance application form and submission arrangements in each state/territory are available in the [NMA Standard Principles of Operation](#) and [NMA Fact Sheet](#). Details on single ethical review of multi-centre research projects and National Mutual Acceptance are available on [State/Territory websites](#).

Western Australia (WA)

For the latest information on which WA HRECs can review a submission under NMA please refer to the [Research Governance Service](#) (RGS).

At the time of publication, the information provided below is correct. However, Western Australia is moving towards a single, centralised HREC through a process of stepped integration which will see the closure of the HRECs listed below. The new HREC, known as the WA Health Central HREC, will be the only HREC in WA by the end of 2025.
